

[NAME OF DOCUMENT] ABSTRACT

[ABSTRACT]

[OBJECT] Even when an operation condition is specified by items existing over a plurality of entry screens, an appropriate value can be easily set.

[MEANS TO SOLVE] A printer driver 10B generates a list of setting result of operation conditions based on setting values for a plurality of items specifying operation conditions of digital copier 30 and displays the list of setting result on the setting confirmation window or the properties window on the display.
